

CTDA On-Line Education Group Orders

CTDA members have asked for educational programs on ceramic tile they could offer to their employees, and now we have them as a **discounted CTDA membership benefit for \$100/course**. That's \$50 off the regular price! Non-CTDA member can receive \$10 off when registering through the CTaSC website and entering the code "CTDAonline". (*Group discounts are available for 100 or more*). Online education course tuition provides 14-day 24/7 access.

Understanding the Basics of Natural Stone has been created with salespeople, installers and design professionals in mind as well as business owners. The [University of Ceramic Tile and Stone](#) has taken care to cover the subjects that anyone working with stone should know. The course's Table of Contents include: Introduction and History of Natural Stone, Stone Geology and Formation, Stone Quarry Mining, Stone Processing and Fabrication, Stone Countertops, Stone Installations, Vertical Applications: Exterior Veneers and Interior Walls, Stone Selection and Design, Stone Care and Maintenance, Giving the Customer a Choice.

Understanding the Basics of Ceramic Tile is a ceramic tile sales course for new employees and those who haven't had the opportunity to learn about the history and all the aspects of ceramic tile. The course which is offered through the [University of Ceramic Tile and Stone](#) teaches the History, Types and Uses of ceramic Tile, the Manufacturing Process, Installation and Maintenance, How to Select the Right Ceramic Tile, and How to Avoid Problems and False Expectations. The course is designed to help sales people increase their sales of ceramic tile, and provides many sales techniques throughout the course.
